EXPERIENCE

Travel Raga [Deploy](#) [Github](#)

Nov2022 - Dec 2022

Web Developer Intern

Remote

It is Holiday Based travel company which provides tour packages all over India.

- I have developed the front end of their partner company **Basera Holidays**.
- It is made using **Html** ,**Bootstrap** and **Figma**.

PROJECTS

Portfolio [Deploy](#) [Github](#)

This is my personal portfolio website which contains all my information such as projects ,skills and my education.

- Built using **Next.js** ,**Tailwind Css**.

Tower Of Honio [Deploy](#) [Github](#)

It is basically an animated site in which user can get the visual idea of one of the famous problem of recursion known as Tower Of Hanoi.

- In this site there are two buttons one for moving the disks and one for to know the future valid moves.
- Built using **React Js** ,**Bootstrap**.

Dhoondo [Github](#)

Dhoondo is a google clone which is based on react js in which we can search anything and get the data in form of images,videos ,links etc.

- Built using **React Js** ,**Tailwind Css** and with the help of **Rapid Api**.
- In this site there is a special feature of theme switch where user can toggle from light mode to dark with help of a slider button.
